Top COCOM Priorities

Derived from this conference and past COCOM Conferences & DOD Spectrum Summit Meetings

- **Improvements to Supportability;**
  - **Primarily - Elimination of deployed systems intended to support the Warfighter that have operational impediments due to spectrum limitations**
  - **Secondarily – Improvements in the tools & process and ability to support rapid acquisition**
- **Spectrum Management Tools and Data for Net-Centric Operations**
- **Lack of Senior Leadership Appreciation of Spectrum Importance**
- **Staffing Levels Versus Current Mission Areas**
- **Spectrum Training (quantity and applicability)**
- **SM Career Field (all Services)**
- **Other Concerns – Operational Electromagnetic Environment**
